

Alternate side parking, made easier

If you need this car moved, call or text.

MY NUMBER

Double parked for street cleaning?

Double parking on alternate side days is a New York tradition. This note is just a friendly gesture to say, "if I'm blocking you in, call or text and I'll be right down."

I made NYC Parking, a free iPhone app that shows the cleaning days on every block, color-coded, with alerts before you need to move. Scan the code to get it.
